

Using Architools learning management system with Apple/iOS devices

For iPhones and iPads

By default, Apple devices block Pop-ups and since the ArchTools Self-Paced Learning modules open up in a new window, if pop-up blockers are on, it may seem like the module is not functional.

To disable pop-up blockers:

1. Go to Settings → Scroll down to Safari → Disable Block Pop-ups, or
2. Press Allow if prompted to do so

For iPads

If you are still having trouble launching a Self-Paced Learning Module on an iPad, you may also need to install the Articulate Mobile Player (AMP) app, which can be downloaded free from the Apple Store.

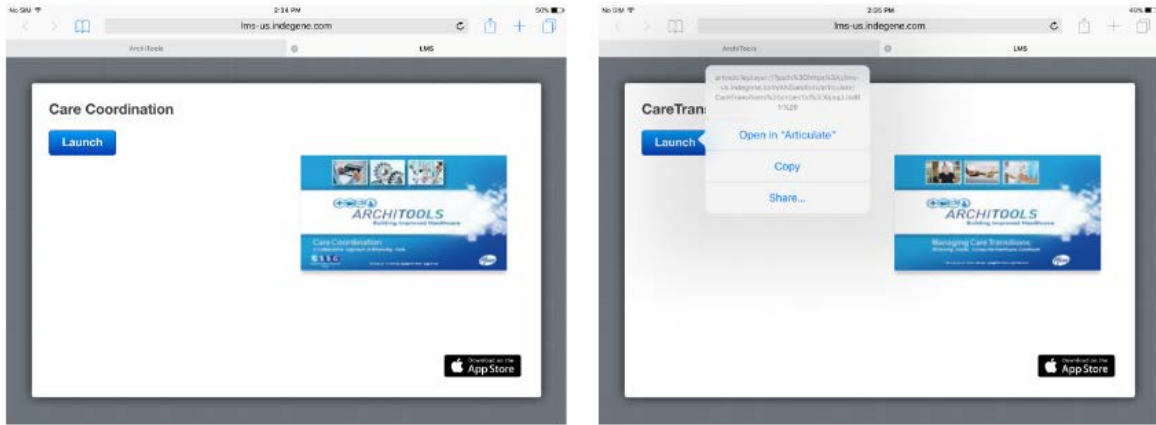

iPad

Description

Get the best e-learning experience available on your iPad with Articulate Mobile Player. Featuring an

To play the module, press and hold the Launch button for a couple of seconds and then click Open in "Articulate" in the new window
