7:30-8:00 AM	Zoom open & registration confirmation (virtual sign-in)	
8:00-8:05 AM	Welcome & introductions	
8:05 – 9:05 AM	Case study in pain management: the patient perspective JAMES HUDSON, MD & PATIENTS (JIM & LINDA BRIGHT)	Identify the impact of the patient – provider relationship based on effective communications and approaches to pain management
9:05 -9:15 AM	Break (10 minutes)	
9:15 AM-12:00 PM	Breakout Sessions (see next page for details)	

Breakout Option 1 – Team-Based Care

9:15-11:45 AM

Multi-disciplinary team approach for treating pain
TIM PHILLIPS, DPT, ERIC LAKE, MA LLP, JAMES HUDSON, MD

- Identify key concepts of a team-based approach in managing chronic pain.
- Identify ways to utilize physical therapy, behavioral health specialists, and the comprehensive pain assessment to incorporate non-pharmaceutical approaches to pain management.

11:45 AM-12:00 PM

Wrap-up and Evaluations

Breakout Option 2 – Substance Use Disorder (SUD)

9:15-11:45 AM

1. Need and value of SUD screening (tools, addressing risk behaviors, referring to treatment)
2. Tapering, crucial conversations, and empowering team to support the provider
GLENN DREGANSKY, DO & EVA QUIRION, FNP, PhD

- Distinguish chronic pain treatment from SUD treatment.
- Identify ways to screen for SUD risk and when present, embark on crucial conversations to converse with the patient in an engaging approach to address behavioral changes and, if at risk, consideration for treatment.

11:45 AM-12:00 PM

Wrap-up and Evaluations
