

Review of the Billing Codes and Quantity Metrics

Billing Basics

- Billed per member per calendar month
 - Only count BHCM time delivering CoCM services; payment accounts for time spent by all clinical team members but can't duplicate shared time
 - Separate Initiating Billable Visit
 - Visit will include the treating provider establishing a relationship with the patient, assessing the patient prior to referral, and obtaining patient consent to consult with specialists
 - Required for patients not seen within one year
-
- Billed alone or with a claim for another billable visit
 - Can bill CoCM services with PDCM claims
 - Can't bill CoCM (99492, 99493, 99493, G0512) services in the same calendar month as chronic care management/general behavioral health integration (99484, G0511)

Additional Requirements

- Advance Consent
 - Verbal or written, must be documented in the EHR
 - Permission to consult with relevant specialists (i.e., psychiatric consultant)
 - Inform the patient of cost sharing
- **BCBSM has waived cost sharing (deductible, coinsurance and copayments) beginning July 1st**

“I have discussed [practice’s] collaborative care program with the patient, including the roles of the behavioral health care manager and psychiatric consultant. I have informed the patient that they will be responsible for potential cost sharing expenses for both in-person and non-face-to-face services. The patient has agreed to participate in the collaborative care program and for consultations to be conducted with relevant specialists.

Face-to-face or telehealth visits with a behavioral health specialist are not associated with this model, even though they may be part of the patient’s overall treatment plan. Services that are not a part of collaborative care can be provided and will be billed according to the patient’s benefit package. These services would also be subject to the cost sharing expenses defined by that benefit plan.”

Medicaid Guidelines

- Effective August 1, 2020
- Psychiatric consultant must have MD or DO licensure
- Initial visit must be face-to-face
- Monthly administration of outcome measures (e.g., PHQ-9, GAD-7)
- After the initial 6 months of treatment, prior authorization is required for an additional 6 months of treatment
- Can't bill G0511
- Can't bill CoCM patients receiving MI Care Team, Behavioral Health Home, or Opioid Health Home benefits

Billing Codes: Commercial Members, Any Location

Provider Location	Service	Code	Month	Time Threshold
Any Location	General Behavioral Health Integration	99484	Any month	11-20 minutes
	CoCM	99492	Initial month	36-70 minutes
		G2214	Initial or subsequent month(s)	16-30 minutes
		99493	Subsequent month(s)	31-60 minutes
		99494	Add-on code	16-30 minutes

Codes for Medicare Advantage Members by Location (Rules differ for Federally Qualified Health Centers and Rural Health Clinics)

Provider Location	Service	Code	Month	Time Threshold
Non-FQHC/RHC	General Behavioral Health Integration	99484	Any month	11-20 minutes
	CoCM	99492	Initial month	36-70 minutes
		G2214*	Any month	16-30 minutes
		99493	Subsequent month(s)	31-60 minutes
		99494	Add-on code	16-30 minutes
FQHC/RHC	Chronic Care Management/General Behavioral Health Integration <small>*Cost share applies to this code related to state/federal rules</small>	G0511	Any month	20 minutes
	CoCM	G0512	Initial month	70 minutes
			Subsequent month	60 minutes

G2214 – Why Was This Code Established 1/1/21?

- CMS developed HCPCS code G2214 in response to requests from stakeholders who reported the need for additional coding to capture shorter increments of time spent with a patient. This type of situation may occur, for example, when a patient is seen for services, but is then hospitalized or referred for specialized care and the number of minutes required to bill for services using the current coding is not met. Thus, to accurately account for these resources, CMS created HCPCS code G2214.

Procedure Codes 99492, 99493, 99494, and G2214

- **99492** - Initial Psychiatric Collaborative Care Management; first 70 minutes in the first calendar month of behavioral health care manager activities, in consultation with a psychiatric consultant, and directed by the treating physician or other qualified health care professional. This code may only be billed once per calendar year.
- **G2214** - Initial or subsequent psychiatric collaborative care management, first 30 minutes in a month of behavioral health care manager activities, in consultation with a psychiatric consultant, and directed by the treating physician or other qualified health care professional
- **99493** Subsequent Psychiatric Collaborative Care Management; first 60 minutes in a subsequent month of behavioral health care manager activities, in consultation with a psychiatric consultant, and directed by the treating physician or other qualified health care professional.
- **99494** - Initial or Subsequent Psychiatric Collaborative CM; each additional 30 minutes in a calendar month of behavioral health care manager activities, in consultation with a psychiatric consultant, and directed by the treating physician or other qualified health care professional (List separately in addition to code for primary procedure)

Required Elements to Bill Codes 99492, 99493, 99494 and G2214

- Outreach to and engagement in treatment of a patient directed by the treating physician or other qualified health care professional
- Initial assessment of the patient, including administration of validated rating scales, with the development of an individualized treatment plan
- Review by the psychiatric consultant with modifications of the plan if recommended
- Entering patient in a registry and tracking patient follow-up and progress using the registry, with appropriate documentation, and participation in weekly caseload consultation with the psychiatric consultant
- Provision of brief interventions using evidence-based techniques such as behavioral activation, motivational interviewing, and other focused treatment strategies

99484 – General Behavioral Health Integration, *Not CoCM*

Care management services for behavioral health conditions, at least 20 minutes of clinical staff time, directed by a physician or other qualified health care professional time, per calendar month, with the following required elements:

- Initial assessment or follow-up monitoring, including the use of applicable validated rating scales
- Behavioral health care planning in relation to behavioral/psychiatric health problems, including revision for patients who are not progressing or whose status changes
- Facilitating and coordinating treatment such as psychotherapy, pharmacotherapy, counseling and/or psychiatric consultation
- Continuity of care with a designated member of the care team

Billing by Time Threshold: CPT Codes

Month	Time Spent	CPT Codes
Initial Month	≤10 minutes	Not billable
	11-35 minutes	99484 – Gen BHI
	36-85 minutes	99492
	16-30 minutes	G2214
	86-115 minutes	99492 + 99494
	116-130 minutes	99492 + 99494, quantity 2 units
Subsequent Month(s)	≤10 minutes	Not billable
	16-30 minutes	G2214
	31-75 minutes	99493
	76-105 minutes	99493 + 99494
	106-135 minutes	99493 + 99494, quantity 2 units

What Activities Can I Include?

- Providing assessment and care management services
 - Any form of patient contact
 - Structured behavioral health assessment
 - Self-management planning; relapse prevention planning
 - 99492 requires an initial assessment of the patient and development of individualized treatment plan
- Administering validated outcome measures (e.g., PHQ-9, GAD-7)
- Using brief therapeutic interventions (e.g., Motivational Interviewing, behavioral activation, problem solving therapy)
- Conducting systematic case review with the psychiatric consultant
- Maintaining systematic case review tool, disease registry, and/or EHR for patient tracking and follow-up
 - Does not include strictly administrative or clerical duties
- Collaboration and coordination with PCP or other qualified health care professionals
- “Running” the caseload with the psychiatric consultant (i.e., conducting a systematic review of caseload without specifically discussing the patient)
 - Approximately 5 billable minutes per calendar month
 - “the patient has been included in the caseload review activities and consulted on as needed”

Scenario A: Chronic Care Management/General Behavioral Health Integration Code

Date	Activity	Time Spent
1/15/21	Patient A admitted to hospital for diffuse symptoms – back pain, headache, no physical diagnosis confirmed; diagnosed with depression. PDCM phones the patient and conducts a post-discharge call.	30
1/15/21	PDCM reviews the case with the BHCM. The BHCM outreaches to the patient and completes a PHQ9 screening and schedules a follow up visit to determine ongoing needs. Patient does not meet CoCM requirements	15
BHCM Total: Bill 99484		15

Scenario B: Pre-enrollment to CoCM

Date	Activity	Time Spent
1/31/21	Patient screened for depression, referral to BHCM made. BHCM meets briefly with the patient, describes the CoCM model and benefits. The patient has not decided on participating	20
BHCM Total: Bill 99484		20

Scenario C: Enrollment to CoCM Near Month End (Initial month)

Date	Activity	Time Spent
1/29/21	Patient screened for depression, referral to BHCM made. BHCM meets briefly with the patient, describes the CoCM model and benefits. The patient has decided to participate.	15
1/30/21	BHCM/psychiatric consultant 'ran' the systematic case review	5
BHCM Total: Bill G2214		20

Scenario C: Enrollment to CoCM Near Month End (Subsequent Month)

Date	Activity	Time Spent
2/4/21	Patient screened for depression. BHCM meets with the patient, provides assessment, motivational interviewing, and develops individualized treatment plan.	40
2/14/21	BHCM contacts patient; BHCM administers PHQ9/GAD7; BHCM updates SCR tool.	35
2/27/21	BHCM discusses patient with psychiatric consultant in systematic case review	10
No date	BHCM/psychiatric consultant 'ran' the systematic case review	5
Total: Bill 99493 + 99494		90

Best Practices

- Have you documented all billable time?
 - Create a smartphrase to prompt BHCMS to document billable time
 - Create a documentation checklist to ensure all BHCM clinical time is calculated
 - Add an EHR form to calculate billable time per calendar month
- Review a report of documented billable minutes per patient per calendar month
 - Review this report half-way through each month to determine which patients would need additional time to reach the next billing threshold
 - Assess distribution of time across the entire caseload
- Is your clinical time being optimized for your caseload size?
 - Conduct a clinical caseload supervision
 - Assess opportunities to keep the caseload “fluid” (i.e., who could benefit from a different level of care?)

Evaluating Time Delivered Across Caseload

99492 Initial Psychiatric Collaborative Care Management

First 70 minutes in the first calendar month of behavioral health care manager activities, in consultation with a psychiatric consultant, and directed by the treating physician or other qualified health care professional, with the following required elements:

- Outreach to and engagement in treatment of a patient directed by the treating physician or other qualified health care professional
- Initial assessment of the patient, including administration of validated rating scales, with the development of an individualized treatment plan
- Review by the psychiatric consultant with modifications of the plan if recommended
- Entering patient in a registry and tracking patient follow-up and progress using the registry, with appropriate documentation, and participation in weekly caseload consultation with the psychiatric consultant
- Provision of brief interventions using evidence-based techniques such as behavioral activation, motivational interviewing, and other focused treatment strategies

99493 Subsequent Psychiatric Collaborative CM

Subsequent psychiatric collaborative care management, first 60 minutes in a subsequent month of behavioral health care manager activities, in consultation with a psychiatric consultant, and directed by the treating physician or other qualified health care professional, with the following required elements:

- Tracking patient follow-up and progress using the registry, with appropriate documentation
- Participation in weekly caseload consultation with the psychiatric consultant
- Ongoing collaboration with and coordination of the patient's mental health care with the treating physician or other qualified health care professional and any other treating mental health providers
- Additional review of progress and recommendations for changes in treatment, as indicated, including medications, based on recommendations provided by the psychiatric consultant
- Provision of brief interventions using evidence-based techniques such as behavioral activation, motivational interviewing, and other focused treatment strategies
- Monitoring of patient outcomes using validated rating scales; and relapse prevention planning with patients as they achieve remission of symptoms and/or other treatment goals and are prepared for discharge from active treatment

G2214 – New CoCM Code Federal Registry 2020- 2021

- To accurately account for these resources costs, we are proposing to establish a G-code to describe 30 minutes of behavioral health care manager time. Since this code would describe one half of the time described by the existing code that describes subsequent months of CoCM services, we are proposing to price this code based on one half the work and direct PE inputs for CPT code 99493 (Subsequent psychiatric collaborative care management, first 60 minutes in a subsequent month of behavioral health care manager activities, in consultation with a psychiatric consultant, and directed by the treating physician or other qualified health care professional, with the following required elements:
 - Tracking patient follow-up and progress using the registry, with appropriate documentation; participation in weekly caseload consultation with the psychiatric consultant;
 - Ongoing collaboration with and coordination of the patient's mental health care with the treating physician or other qualified health care professional and any other treating mental health practitioners;
 - Additional review of progress and recommendations for changes in treatment, as indicated, including medications, based on recommendations provided by the psychiatric consultant;
 - Provision of brief interventions using evidence-based techniques such as behavioral activation, motivational interviewing, and other focused treatment strategies;
 - Monitoring of patient outcomes using validated rating scales; and relapse prevention planning.....

Subsequent
Psychiatric
Collaborative
CM

- Each additional 30 minutes in a calendar month of behavioral health care manager activities, in consultation with a psychiatric consultant, and directed by the treating physician or other qualified health care professional (List separately in addition to code for primary procedure)

99484 Care Management Services for Behavioral Health

Care management services for behavioral health conditions, at least 20 minutes of clinical staff time, directed by a physician or other qualified health care professional time, per calendar month, with the following required elements:

- Initial assessment or follow-up monitoring, including the use of applicable validated rating scales
- Behavioral health care planning in relation to behavioral/psychiatric health problems, including revision for patients who are not progressing or whose status changes
- Facilitating and coordinating treatment such as psychotherapy, pharmacotherapy, counseling and/or psychiatric consultation
- Continuity of care with a designated member of the care team

Avoiding “same date” Denials

Avoiding “same date” denials	
99492 and 99493 in the same month	You wouldn’t bill an initial month (99492) and a subsequent month (99493) in the same month
99492 and G2214 in the same month	<p>99492 is initial month, so you wouldn’t combine with G2214, a code that could either be initial month or subsequent month.</p> <p>If you need to bill more minutes than 99492 provides, you’d bill 99492 and units of 99494.</p> <p>If you don’t have enough minutes to bill 99492, you would bill G2214 alone.</p>
