

Question/response on the PDCM changes being a requirement of PDCM.

We met to discuss your question and clarification. When we started reviewing the Gcodes that are part of PDCM, we found that there was language that had quantity restrictions. To better serve our program and to be more in alignment with CMS and other healthcare payors, BCBSM leadership chose to make these changes. As a result, the quantity limitations will be implemented on 4/1/2026 to allow sufficient time for these changes to be put in place.

With regard to RHCs/FQHPs, as you know CMS determines the billing requirements not BCBSM since they receive a per diem from the government. We would recommend that practices work with their internal compliance area for any issues.
